

# Directions

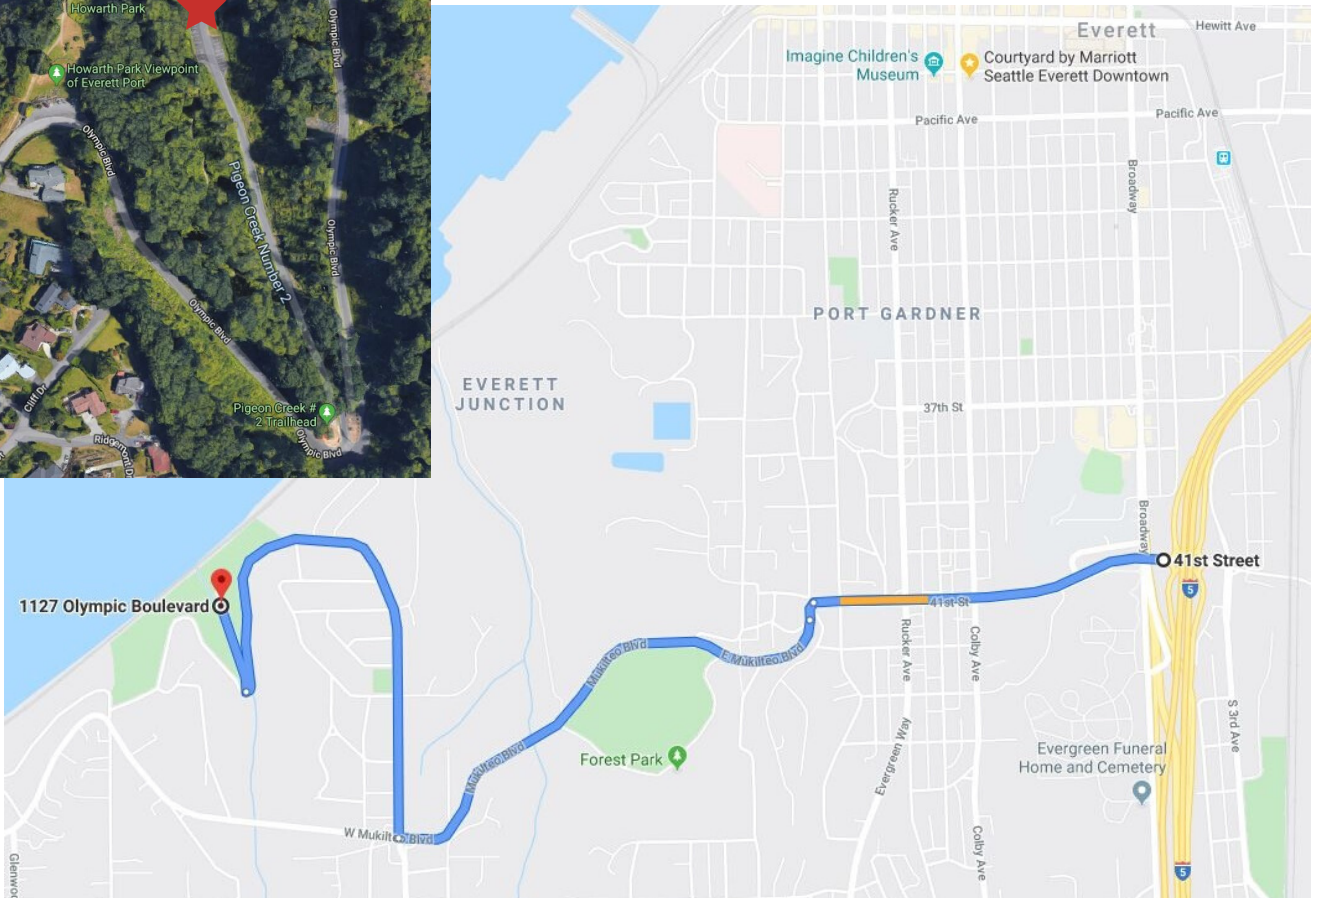

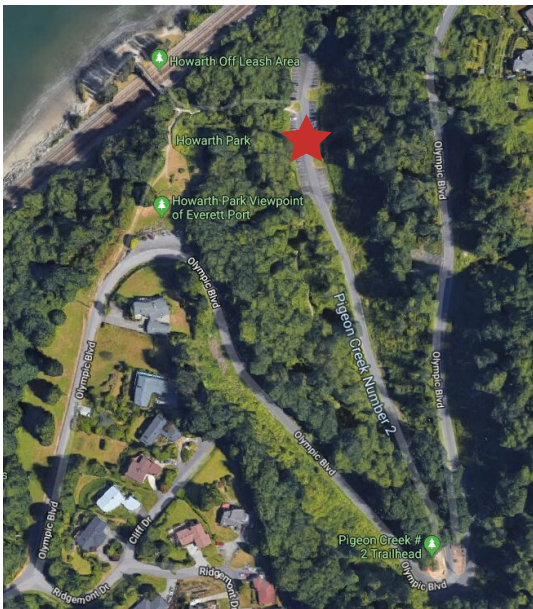

FRIDAY, NOVEMBER 15  
9:30-10:30 AM  
LOST? CALL 425-754-5731

## Southbound:

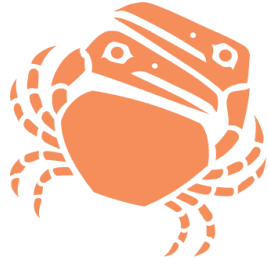

Take Exit 192 from I-5 and stay right to turn right onto 41st Street. Follow 41st Street and E Mukilteo Blvd to Olympic Blvd. Turn right onto Olympic Blvd. and continue for just over a mile as it curves to the left. Watch for a sharp right turn at an unnamed road that will take you to the Howarth Park parking lot. If you get to the Howarth Park viewpoint you've gone too far.

## Northbound:

Take Exit 192 from I-5 and stay in the left to turn onto 41st Street. Follow 41st Street and E Mukilteo Blvd to Olympic Blvd. Turn right onto Olympic Blvd. and continue for just over a mile as it curves to the left. Watch for a sharp right turn at an unnamed road that will take you to the Howarth Park parking lot.

FIELD  
TRIP

Snohomish County  
Marine Resources  
Committee

# Howarth Park

1127 Olympic Blvd.  
Everett, WA 98203

In the late 1800s, railroad construction along the marine shoreline cut off the beach from the sandy bluffs that feed them.

To improve the degraded shoreline, Snohomish County completed a beach nourishment project between Mukilteo and Everett, placing **22,156 tons of sediment at six locations**. Over time, the sand will naturally distribute along the shoreline, improving the beaches.

The County also worked with the City of Everett and the Port of Everett to remove a bulkhead at Howarth Park and **increase the useable beach area by more than 120 feet** for both people and juvenile Chinook salmon.

# Project Partners

- Snohomish County
- City of Everett
- Port of Everett
- WA Department of Ecology
- WA Department of Natural Resources
- Salmon Recovery Funding Board
- US Fish & Wildlife
- US EPA
- Tulalip Tribes
- City of Mukilteo
- Burlington Northern Santa Fe
- Anchor QEA

# Funding

The total cost of the project is about \$2.1 million. More than 90% grant funded.

Grants include:

- State of WA Recreation and Conservation office: Salmon Recovery Funding Board
- US Environmental Protection Agency: Estuary and Salmon Restoration Program
- US Fish and Wildlife Service
- Northwest Straits Commission
